These Works can run continually, and will make more salt, and of better quality than can be produced by the Kettle Process. They save one half the fuel, (one cord of wood making ten barrels of salt,) a large part of the labor, the loss from breakage of kettles, &c., and are in all respects the most economical and best mode of manufacturing salt by artificial heat.

For description of Salt Manufactory, see History.

HISTORY OF CARROLLTON.

The village bearing this name is situated on the west bank of the Saginaw River, a little more than one mile below the bridge at East Saginaw, on what has long been known as the Peter Riley Reservation, a fine tract with good high land on the river, with no bayou or marsh in the rear, and had for a long time been the camping ground of the Indian in his annual visit to the trading post of Saginaw.

The discovery of salt in the Valley caused this desirable location to be bought, and during '60 and '61 five companies were formed to operate at this point. In the summer of 1862 a village plat was made by Messrs. Curtis, Ward & Gillett, who were then owners of the larger part of the Reservation; since which time the Village has had a steady healthy growth, until in February 1866, when the eastern portion of the town of Saginaw, including the village of Carrollton, was detached from the Town of Saginaw and erected into a new town by the name of Carrollton. A Post office was established at this village April 1864, bearing the name of the village, and the present Post Master, C. E. Gillett, was appointed to the office.

A Presbyterian Society has been organized at this place and the Rev. M. Gelston is the Pastor.

The coming season it is the intention to build a Union School House of brick, in the center of appropriate grounds.

Township Officers.—Supervisor, Charles E. Gillett; Town Clerk, Archibald Bierd; Treasurer, Martin Stoker; School Inspectors, Charles E. Gillett, Michael Ulrich; Commissioners of Highways, William Garrett, Alexander McBratnie, John Diendorffer; Justices of the Peace, Frederic S. C. Ross, Reuben Crowell, E. F. Gould; Constables, Nicholas Meyers, Patrick Madden, Adelbert H. Babcock, John Linder.

[The following Notices were received too late for insertion in their proper place.—PUBS.]

C. R. HAWLEY & Co. commenced business here in December, 1865. They have a store 22x85, and two stories high, well filled with a complete assortment of goods in their line of trade, consisting of Dry Goods, Carpets, Boots and Shoes, Caps and Gents' Furnishing Goods. These gentleman having had a large experience in the mercantile business, know well the wants of their customers, and are amply prepared to furnish everything in their line of business as all must be convinced who visit their extensive establishment, at wonderfully low prices; their motto being "quick sales and small profits." The attention which these gentlemen give to their business is fast winning for them a place among the best business houses of the Valley.

The business of W. H. DOWNS, was established here in February, 1865. His store is 25x80, and well stocked with Boots and Shoes, and Gents' Furnishing Goods. The stock of Boots and Shoes is the largest and best assorted in the city, as all will be convinced who visit his store, and having had a large experience in the business, he is a good judge of the articles in which he deals, and none but the best goods are purchased by him.—He employs the best workmen in his custom department, and has the name of making the best of "fits." The repairing is neatly done, and attests the superior mechanical skill of his workmen. By his gentlemanly and fair dealing he has secured a large trade and a fair pecuniary reward. Success to him is a foregone conclusion, which is always the reward of upright dealing.

A. DANN, proprietor of the Wolverton House, is an old landlord, having had over twenty years experience. His table is always supplied with the best the market affords, and his customers are made to feel at home in his comfortable quarters. Charges moderate.
